York Teaching Hospital NHS

## **NHS Foundation Trust**

## **Intrathecal Management Audit**

- 1) Were you informed by the ward staff that the patient was having an intrathecal line fitted?
- 2) Were you able to access support and training from the Hospital team prior to discharge?
- 3) Was the administration chart sent with the patient on discharge from Hospital?
- 4) Did you require OOH support with the management of the intrathecal pump?
- 5) Did you need to contact the hospital at any point during the patients care? Were you able to access appropriate support?
- 6) Did you experience any issues which you would like to feedback for future review of the pathway?
- 7) Could you say what went well during the time you cared for the patient with the intrathecal pump?
