

# COSHH Assessor Training with H<sup>2</sup>O Chemicals

## Who is this training targeted at?

This is a one day course designed for those who have a responsibility for the assessment and control of hazardous substances'

## Course outline

The COSHH Assessor course aims to provide delegates with a thorough understanding of the basis and application of the Control of Substances Hazardous to Health Regulations (COSHH) and how to apply the requirements of the regulations in undertaking COSHH Assessments. These regulations also include requirements for a wide range of hazardous substances including chemicals, gases and biological agents such as legionella.

## Course content

- Relevant Regulations
- How to recognize hazardous substances and evaluate the risk
- How hazardous substances affect us
- The various sources of information to help employers in deciding what action to take
- Examples of precautionary measures used to minimise exposure
- Factors to consider when carrying out COSHH assessments
