Disclaimers

This leaflet is for information only and should not be used for the diagnosis or treatment of medical conditions.

As a Trust, we do not advocate compression therapy for a head injury or soft tissue injury.
What to do if you suspect you have a head injury

We believe that you sustained a head injury following a fall whilst in our care. You were offered a check-up in our Emergency Department / Minor Injury Unit / Urgent Care Centre but you declined this service. We respect your decision, but would like to offer you the following advice.

If you have any of the symptoms below, we recommend you return immediately to your local Emergency Department:

- Unconsciousness or lack of full consciousness (for example, unable to keep your eyes open).
- Any confusion (not knowing where you are or muddled thinking).
- Any drowsiness (feeling sleepy that goes on for longer than one hour, when you would normally be awake).
- Difficulty waking up.
- Any problems with your eyesight.
- Very painful headaches that will not go away.
- Any vomiting.
- Any fits (collapsing or passing out suddenly).
- Clear fluid coming out of your ears and nose.
- New bleeding from one or both ears.
The following advice should also be followed:

1. That you contact a family member or friend to let them know you have had an injury. One of our practitioners would be happy to do this for you.

2. We advise you not to stay home alone for 48 hours. If this is not an option, stay within easy reach of a phone or medical help.

3. Do have plenty of rest and avoid stressful situations.

4. Do not take any alcohol or drugs.

5. Do not take sleeping tablets, sedative, or tranquilizers unless prescribed by a doctor after the fall.

6. Do not play any contact sports without discussing this with your doctor first.

7. Do not return to your normal school, college or work activity until you feel you have completely recovered.

8. Do not drive a car/ motorbike/ ride a bike/ operate machinery unless you have completely recovered.
Tell us what you think of this leaflet

We hope that you found this leaflet helpful. If you would like to tell us what you think, please contact: Patient Safety Team, Fourth floor admin block, The York Hospital, Wigginton Road, York, YO31 8HE or telephone 01904 721549.

Teaching, training, and research

Our Trust is committed to teaching, training, and research to support the development of health and healthcare in our community. Healthcare students may observe consultations for this purpose. You can opt out if you do not want students to observe. We may also ask you if you would like to be involved in our research.

Patient Advice and Liaison Service (PALS)

PALS offers impartial advice and assistance to patients, their relatives, friends and carers. We can listen to feedback (positive or negative), answer questions and help resolve any concerns about Trust services.

PALS can be contacted on 01904 726262, or email pals@york.nhs.uk.

An answer phone is available out of hours.
