Cancer Care Review

What is an electronic Holistic Needs Assessment?

An electronic Holistic Needs Assessment (eHNA) gives people with a cancer diagnosis a chance to think about their concerns and discuss possible solutions with their Key Worker. It isn't just about looking at the symptoms of the cancer.

Physical

Spiritual

Financial

Emotional

Practical

1. Fill in an electronic Holistic Needs Assessment

2. Discuss any concerns with a Key Worker

3. Create a Care Plan together

4. Share the Care Plan with the Patients GP

"We are providing support for that un-met need"

"The eHNA is patient led, addressing concerns of our patients"

"It helps structure the clinics"

Key Worker

"It's not always just cancer problems. It's things that affect your work or your family life, or your relationships with your friends"

Patient

"It has really helped me psychologically. It's important to me that someone has given their time to listen to me and to what concerns I have."

"I found it really useful to be able to discuss my concerns and to know that the team could advise me was very helpful"

Benefits of having an eHNA

- The Care Plan encourages self management and the ability to plan ahead.
- Signposting to local services.
- Understanding what is important to you.
