CHAPLAINCY VOLUNTEER

The Trust offers a Spiritual Care and Chaplaincy service at all its hospitals. The Chaplaincy team seek to meet the spiritual needs of patients, relatives, friends and staff. A Chaplaincy Volunteer will be expected to make a regular commitment of time (e.g. ideally weekly or even on a regular ‘occasional’ basis) and depending on role designation (see below) may be allocated to work on a specific ward.

Role Description
A Chaplaincy Volunteer will be designated as one of the following categories. It may be possible for a Volunteer to combine several categories, by agreement with the relevant Senior Chaplain.

- Ward Visitor
- Chaplaincy Welcomer
- Chapel Escort
- Chaplaincy Administrator (Voluntary)

Role Supervision
The Ecumenical Chaplaincy team is managed by the Senior Chaplain, based at York Hospital. Volunteers will work under the supervision of the Senior Chaplain or the lead chaplains based at York and Scarborough Hospitals. Volunteers must work within the scope of their appropriate role description for health and safety purposes.

Role Preparation
Every prospective volunteer will be expected to undertake a number of visits ‘shadowing’ a current team member. This may, at the discretion of the relevant Chaplain, take place before, or concurrently with, the application process.

Each volunteer will also be expected to undertake a period of training. The course will be designed to suit the role designation assigned to the volunteer.

At any point during the shadowing programme or the training programme the relevant Senior Chaplain and the Volunteers Administrator will review with the prospective volunteer whether the application should continue, or whether the volunteer proceeds beyond the initial training.

Trust Key Values

The ultimate objective of the Trust is: ‘To be trusted to deliver safe, effective and sustainable healthcare within our communities’. The Trust believes that the key to achieving this is that both employees and volunteers demonstrate the following Trust Values: caring about what we do; respecting and valuing each other; listening in order to improve; and always doing what we can to be helpful.

Training, Induction and Review

We will offer you training appropriate to your designated role(s) which will include teaching sessions as well as shadowing and observation. You may be required to attend some, or all, of the Trust’s Induction programme. The above training must be satisfactorily completed. Other training may be required, as circumstances dictate. We will also review progress after a specified time of starting your volunteer role.

An ID badge will be authorised after all application and post-application procedures have been completed. You may also apply for a parking permit at this stage. You may be entitled to reclaim certain expenses in connection with the volunteer role.

Your expectations

24/04/2019
You may expect that the Senior Chaplain, Lead Chaplains and the Volunteers Administrator will assist you through the application process and training programme and that you can contact them should you have any queries or anxieties about joining the Volunteer team.

The relevant Chaplain will offer you regular supervision and support in your Volunteer role.

You may also contact the Volunteers Administrator to discuss any issues about your role.

If and when you are ready to leave your volunteer placement, please let your ward supervisor and the volunteers service (volunteering.mailbox@york.nhs.uk) know so that we can collect your ID badge and open the place up to others.
