

Living With & Beyond Cancer Newsletter Macmillan Recovery Package June 2019

Patient Participation

The Macmillan Recovery Package team are hosting a focus group for people affected by cancer. July's topic is Holistic Needs Assessment (HNA) and Care Planning. Please register your place by emailing MacmillanRecoveryPackage@york.nhs.uk or by telephone 01904 725659.

Friday 12th July 2019 – 10:00- 11:00
Location: Cancer Care Centre, York Hospital

Living With & Beyond Cancer Event

York Hospital celebrated National Cancer Survivorship Day on the 3rd June 2019. The event had stands from various departments in the Trust, local support charities and organisations highlighting the great work they are doing to support the people affected by cancer. Over 200 people attended the event and said the day was informative, educational and that it was fantastic to have the opportunity to talk to the teams and receive support.

Thank you to all who attended, we look forward to next year.

Treatment Summary

The electronic Treatment Summary template identified a number of malfunctions in the system last week and therefore the launch has been temporarily suspended. Work is ongoing to resolve the issues, such major IT development is bound to encounter minor issues. We aim to resolve these by the middle of July.

Thank you for your patience.

Electronic Holistic Needs Assessments (eHNA) and Care Planning in the Cancer Care Centre

The Cancer Care Centre in York will be starting to complete eHNA's & Care Plans for patients who come in to the centre with any concerns/worries. Often patients come in to the centre and are signposted to local services, given advice and information. The eHNA and Care Plan will allow the team to address non-clinical concerns. The team will continue to escalate any clinical concerns to the Cancer Nurse Specialist teams..

This is a 3 month pilot, starting Monday 1st July 2019.
