## Proposed Plan

## Proposed 3D Visualisation

## Proposed Perspective Visualisation of Patient Room

## Proposed Perspective Visualisation of Relatives Lounge

## PROJECT BRIEF AND OBJECTIVES

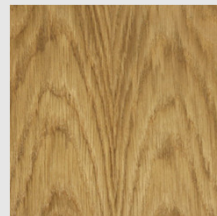

To provide fit for purpose facilities for newly bereaved parents so they receive appropriate care that will enable them to grieve in a protected environment.

To refurbish and update the area and making it discreet from the main labour ward but keeping access to labour ward.

To give the maternity unit a protected area to care for newly bereaved parents improving the quality of care given to this group of parents and their wider family.

To provide a service and a facility which is fit for purpose. To improve the care that we give to our parents that are bereaved. Adding value to the care which we provide for these patients and respect their needs, ensuring that we provide an excellent, gold standard service.
